

Low Water Use Plants

Groundcover or Low Growing

Acacia
redolens (prostrata)
Arctotis
Arctostaphylos prostrata variety
Arctotheca calendula
Asparagus springeri
Baccharis pilularis
Carissa 'Green Carpet' & prostrate
Ceanothus griseus horizontalis
Ceratostigma plumbagioides
Convolvulus mauritanicus
Festuca ovina glauca
Fragaria chiloensis
Gazania
Ice Plant Varieties
Juniper, several low varieties
Kalanchoe pumila
Lantana, prostrate or spreading
Lavendula
Liriope
Lonicera
Myoporum parvifolium
Osteospermum
Rhynchospermum jasminoides asiaticum
Rosmarinus officinalis prostrate
Seedum varieties
Verbena peruviana

Trees

Acacia
Albizzia
Arbutus
unedo
Brachychiton
Callistemon
Cedris
deodara
Eucalyptus
Fraxinus
Geijera
parvifolia
Grevilla
robusta
Leptospermum
Meleuca
Myoporum
Olea
Pinus
Pittosporum
Podocarpus
Populus
Quercus
Rhus
Schinus

Shrubs

Acacia varieties
Agapanthus
Agave varieties
Aloe varieties
Alyogyne huegelii
Asparagus varieties
Aspidistra
Beaucarnia recurvata
Bougainvillea
Callistemon
Cassia
Ceanothus
Cistus
Clivia
Convolvulus
Coprosma
Echium
Escallonia
Euphorbia varieties
Feijoa
Genista
Grevillea varieties
Hemerocallis
Ilex
Juniper
Lagerstromia
Leptospermum
Leucophyllum texanum
Ligustrum texanum
Morea or Dietes
Myrtus
Nandina
Nerinebergia
Nerium 'Oleander'
Pittosporum
Plumbago capensis
Photinia
Prunus caroliniana
Pyracantha
Raphiolepis indica
Rosmarinus officinalis
Santolina
Solanum rantonetii
Sollia heterophylla
Statice perizii/Limonium
Stretlezia
Tecomaria capensis
Yucca

Palms

Archontophoenix
Chamerops humilis
Phoenix varieties
Trachycarpus
Washingtonia

Vines

Bignonia & relatives
Bougainvillea
Hardenbergia
Lonicera
Pyracantha
Rose
Wisteria

When planning your yard for low water use, the following should also be seriously considered. Use plenty of Soil Conditioner and use about 3" Mulch.
