## Microsorium musifolium Crocodile Fern

**An absolutely fantastic fern! Ornamental, unusual & easy to look after. Originally from South Africa this fern's leaves perfectly mimic the skin of a crocodile.**

- ◆ **Requires moderate to bright light**
- ◆ **Once established, plant can be divided**
- ◆ **Feed every month or so**
- ◆ **Requires consistently moist soil; do not let dry out between waterings. Avoid over watering, does not like wet roots**
